

COSMOS CONNECT DO MORE WITH LESS

Play video games, activate switch toys, dine independently, check text messages, and more, all using a single NeuroNode and the COSMOS Connect. Install the COSMOS Connect application on a NeuroNode Trilogy to use the 8 wired inputs or Bluetooth connection to operate switch devices.

Control Bionics offers a suite of dedicated speech generating devices and accessories to give people living with complex communication and physical needs their voice.

Our product range is more intuitive and flexible than ever.

OPERATING SYSTEM

IOS AND ANDROID CONNECTION

Keep the current operating system, use what the client is already comfortable with.

GAMING

ADVANCED XBOX INTEGRATION

Play games in single or multi-player mode. Control up to 8 Xbox buttons with the NeuroNode.

SWITCH CONTROL

CONTROL TOYS WITH JUST THE NEURONODE

A fun way to stay connected and play.

INTEGRATION

OBI DINING ROBOT

Dine with confidence and independence. Control the Obi with just one sensor.

DO MORE WITH LESS

The COSMOS Connect is a small portable control device that can be used with a Windows display device. When paired with the NeuroNode sensor, the COSMOS Connect leverages our exclusive application to intuitively interact with a variety of personal control devices giving the user more independence with a single movement. The device allows up to 8 wired outputs and one Bluetooth output.

CONTEXT AND EFFECT

The COSMOS Connect app, installed on a Windows device, is designed to match not only the device but also the context of a specific activity. Intuitive menus present choices right for the current context, giving independence and control to the user. The app comes with cloud-based presets to simplify setup and create meaningful context right from the home screen.

NEURONODE TRILOGY

The NeuroNode Trilogy is our hallmark speech generating device that offers multi-modal access with the proprietary NeuroNode sensor allowing for faster speed and less fatigue when communicating.

Install COSMOS Connect on a NeuroNode Trilogy to seamlessly switch between communication software and other devices.

Adding COSMOS Connect to the NeuroNode Trilogy allows a NeuroNode sensor to not only provide access to faster and less fatiguing communication, but also to recreational activities. This is a great way to make access even more efficient and accurate.

WHAT'S IN THE BOX

- COSMOS Connect Device
- USBc connecting cable
- 8 wires
- USB hub
- Instruction booklet
- App download instructions
