

EYEGAZE DUO SEE THE DIFFERENCE

The EyeGaze Duo is a speech generating device providing streamlined access through either touch or eye gaze. The touch screen and state-of-the-art eye gaze camera allow users to access communication software with their eyes.

Control Bionics offers a suite of dedicated speech generating devices and accessories to give people living with complex communication and physical needs their voice.

Our product range is more intuitive and flexible than ever.

POWERFUL DEVICE

Established, trusted equipment to efficiently run the system.

EYE TRACKING HARDWARE

State-of-the-art optic technology for use anywhere.

ALGORITHM-BASED SOFTWARE

Machine learning uses algorithms to improve experience.

COMMUNICATION SOFTWARE

Gives the user tools to express themselves and communicate independently.

FUNDING OPTIONS

Get the device your client needs, fully funded. We're a registered NDIS provider.

24/7 SUPPORT

You and your clients will always have a resource to help with the device.

SEE THE DIFFERENCE

Eye gaze allows the user to control a computer mouse with their eyes. The camera and software determine what button the user is looking at and, if they hold their gaze long enough, the device selects it.

Both eye gaze and touch access can be fully customised to meet the needs of the user with the EyeGaze Duo. In addition, both eye gaze and touch can be used with symbol or text based communication.

UPGRADEABLE OPTION

Start with the EyeGaze Duo and upgrade to the NeuroNode Trilogy with the addition of a NeuroNode. Whether the condition changes or access methods need improvement, it's a simple upgrade to the NeuroNode Trilogy. The EyeGaze Duo gives the user the flexibility to add a NeuroNode when needed in the future.

POWERFUL ALGORITHMS

The highly accurate camera in the EyeGaze Duo was built with a learning algorithm that's constantly working to improve. The software works behind the scenes to give the client the best experience with minimal effort.

STATE-OF-THE-ART OPTIC TECHNOLOGY

Developed for indoor and outdoor use, our state of the art eye-tracking hardware was designed with technology to give the client the freedom to communicate wherever they go.

WHAT'S IN THE BOX

- Windows Tablet
- Protective case
- Charger
- Mounting Frame for eye gaze camera
- VESA mounting bracket
- Eye gaze Camera
- Eye gaze Camera USB cable
- Communication software license
